U.S. 1 RESURFACING – Rockland Channel to Shark Channel

Description of Problem Area

This section of the Overseas Highway is scheduled for resurfacing by the Florida Department of Transportation in 2003. The plans will include turn lanes. This section of the Overseas Highway is two lane, not divided with grassed shoulders and in some instances lime rock shoulders and a bike path or pedestrian path along the north side. In general, the roadway is higher than the surrounding areas. This section is approximately 1.3 miles in length and 686,400 s.f. in area of which 263,578 s.f. is impervious, resulting in a "C" factor of 0.43. Photos 6, 7, 8 & 9 depict the study area. Preliminary indication from FDOT is that turn lanes will be constructed, decreasing the existing pervious area.

Recommended Improvements

- Widen the paved shoulder to 6' to eliminate parking on the grass.
- Swale the shoulder at the edge of pavement. This should be a "V" shaped swale, 1' deep with 3:1 side slopes, right-of-way permitting. These swales will provide 1.89 ac.ft. of total storage.
- Vegetate the swale and remainder of the side slope.
- Use porous asphalt (Friction Course) for the resurfacing.
- Set a cross slope on the proposed turn lanes to drain to the swale above.

At the present time, there is a treatment volume required of 1.35 inches. The proposed improvements would provide a level of treatment to 1.03 inches and provide a 93% volume capture. The estimated capital cost of these improvements is presented in the Capital Cost Summary.

U. S. 1 – RESURFACING – North Harris Channel to Park Channel

Description of Problem Area

This section of the Overseas Highway is scheduled for resurfacing by the Florida Department of Transportation in 2003. The highway is a two lane, not divided section with a substantial mangrove growth on either side of the highway. It is approximately one mile in length and 528,000 s.f in area, of which 232,320 s.f. is impervious, resulting in a "C" factor of 0.47. Photos 13, 14 & 15 depict the study area. It is assumed that the FDOT will perform the work in the same manner as current resurfacing projects, i.e., with a 2' grass strip adjacent to the pavement and a 4' striped asphalt shoulder. No sodding will be placed on the side slopes. The roadway shoulders in this area have been repaired with millings from previous projects and form an impervious surface.

Recommended Improvements

- Widen the paved shoulder to 6' to eliminate parking on the grass.
- Swale the shoulder at the edge of pavement. This should be a "V" shaped swale, 1' deep with 3:1 side slopes, right-of-way permitting. These swales will provide 1.45 ac. ft. of total storage.
- Remove all milling material and replace with lime rock.
- Vegetate the swales and the side slopes where grass is missing.
- Use porous asphalt (Friction Course) for the new surface.

At the present time, there is a treatment volume required of 1.4 inches. The proposed improvements would provide a level of treatment of 1.45 inches and provide a 96% volume capture. The cross-section sketch below shows the proposed improvements. The estimated capital cost of these improvements is presented in the Capital Cost Summary.

AUDIT REPORTS

The administration of resources awarded by the DEPARTMENT to the COUNTY may be subject to audits and/or monitoring by the DEPARTMENT, as described in this section. For further guidance, see the Executive Office of the Governor website, which can be found at: www.fssa.state.fl.us.

MONITORING

In addition to reviews of audits conducted in accordance with OMB Circular A-133 and Section 215.97, F.S., as revised (see "AUDITS" below), monitoring procedures may include, but not be limited to, on-site visits by DEPARTMENT staff, limited scope audits as defined by OMB Circular A-133, as revised, and/or other procedures. By entering into this agreement, the recipient agrees to comply and cooperate fully with any monitoring procedures/processes deemed appropriate by the DEPARTMENT. In the event the DEPARTMENT determines that a limited scope audit of the recipient is appropriate, the recipient agrees to comply with any additional instructions provided by the DEPARTMENT staff to the COUNTY regarding such audit. The COUNTY further agrees to comply and cooperate with any inspections, reviews, investigations, or audits deemed necessary by the Chief Financial Officer (CFO) or Auditor General.

AUDITS

PART I: FEDERALLY FUNDED

Recipients of federal funds (i.e. state, local government, or non-profit organizations as defined in OMB Circular A-133, as revised) are to have audits done annually using the following criteria:

1. In the event that the recipient expends \$300,000 (\$500,000 for fiscal years ending after December 31, 2003) or more in Federal awards in its fiscal year, the recipient must have a single or program-specific audit conducted in accordance with the provisions of OMB Circular A-133, as revised. EXHIBIT 1 to this agreement indicates Federal resources awarded through the DEPARTMENT by this agreement. In determining the Federal awards expended in its fiscal year, the recipient shall consider all sources of Federal awards, including Federal resources received from the DEPARTMENT. The determination of amounts of Federal awards expended should be in accordance with the guidelines established by OMB Circular A-133, as revised. An audit of the recipient conducted by the Auditor General in accordance with the provisions OMB Circular A-133, as revised, will meet the requirements of this part.
2. In connection with the audit requirements addressed in Part I, paragraph 1., the recipient shall fulfill the requirements relative to auditee responsibilities as provided in Subpart C of OMB Circular A-133, as revised.
3. If the recipient expends less than \$300,000 (\$500,000 for fiscal years ending after December 31, 2003) in Federal awards in its fiscal year, an audit conducted in accordance with the provisions of OMB Circular A-133, as revised, is not required. In the event that the recipient expends less than \$300,000 (\$500,000 for fiscal years ending after December 31, 2003) in Federal awards in its fiscal year and elects to have an audit conducted in accordance with the provisions of OMB Circular A-133, as revised, the cost of the audit must be

paid from non-Federal resources (i.e., the cost of such an audit must be paid from recipient resources obtained from other than Federal entities).

4. Federal awards are to be identified using the Catalog of Federal Domestic Assistance (CFDA) title and number, award number and year, and name of the awarding federal agency.

PART II: STATE FUNDED

Recipients of state funds (i.e. a nonstate entity as defined by Section 215.97(2)(I), Florida Statutes) are to have audits done annually using the following criteria:

1. In the event that the recipient expends a total amount of state financial assistance equal to or in excess of \$300,000 (\$500,000 for fiscal years ending on September 30, 2004, and thereafter) in any fiscal year of such recipient, the recipient must have a State single or project-specific audit for such fiscal year in accordance with Section 215.97, Florida Statutes; applicable rules of the Executive Office of the Governor and the CFO; and Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General. EXHIBIT 1 to this agreement indicates state financial assistance awarded through the DEPARTMENT by this agreement. In determining the state financial assistance expended in its fiscal year, the recipient shall consider all sources of state financial assistance, including state financial assistance received from the DEPARTMENT, other state agencies, and other nonstate entities. State financial assistance does not include Federal direct or pass-through awards and resources received by a nonstate entity for Federal program matching requirements.
2. In connection with the audit requirements addressed in Part II, paragraph 1, the recipient shall ensure that the audit complies with the requirements of Section 215.97(7), Florida Statutes. This includes submission of a financial reporting package as defined by Section 215.97(2)(d), Florida Statutes, and Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General.
3. If the recipient expends less than \$300,000 in state financial assistance in its fiscal year (\$500,000 for fiscal years ending on September 30, 2004, and thereafter), an audit conducted in accordance with the provisions of Section 215.97, Florida Statutes, is not required. In the event that the recipient expends less than \$300,000 (\$500,000) in state financial assistance in its fiscal year and elects to have an audit conducted in accordance with the provisions of Section 215.97, Florida Statutes, the cost of the audit must be paid from the nonstate entity's resources (i.e., the cost of such an audit must be paid from the recipient's resources obtained from other than State entities).
4. State awards are to be identified using the Catalog of State Financial Assistance (CSFA) title and number, award number and year, and name of the state agency awarding it.

PART III: OTHER AUDIT REQUIREMENTS

The recipient shall follow up and take corrective action on audit findings. Preparation of a summary schedule of prior year audit findings, including corrective action and current status of the audit findings is required. Current year audit findings require corrective action and status of findings.

Records related to unresolved audit findings, appeals, or litigation shall be retained until the action is completed or the dispute is resolved. Access to project records and audit work papers shall be given to the FDOT, the Comptroller, and the Auditor General. This section does not limit the authority of the DEPARTMENT to conduct or arrange for the conduct of additional audits or evaluations of state financial assistance or limit the authority of any other state official.
